WHO WE ARE

Welcome to StoneVault Exports (India) Pvt.Ltd.

Since 2013, StoneVault Exports has been shaping the journey of Indian Natural Stones to the global market with precision, passion, and purpose. From the depths of the Earth's crust to the intricate details of human craftsmanship, we pursue excellence daily, building lasting relationships with clients across North America, Europe, the Far East, and the MENA region.

At StoneVault, quality is not an act but a consistent process. Our advanced, carefully refined technological practices allow us to maintain high quality standards while ensuring competitive pricing and timely deliveries. Sourced from the diverse regions of India, our stones are processed in our state-of-the-art facility at Hosur Tamilnadu at Kishangath Rajasthan, the Granite Capital of India, where a dedicated team of skilled quality controllers inspects each stage-from raw material procurement to final dispatch.

We specialize in supplying premium Gangsaw Slabs, Vertical Slabs, and Tiles, continually adapting to the evolving global standards in quality, design, and development. With our spacious warehousing and secure packaging practices, we guarantee the safe handling and delivery of each order.

At StoneVault, we are committed to "Redefining Stones" to create lasting smiles around the world, one project at a time.

CORE TEAM

Mr. S. N. Taparia

(Chairman)

He is the Founder of the Maheshwar Group and Chairman of the Company. He began his business in 1975 by trading in automobiles spares in Beawar. In 1985, he expanded his business in industrial and agricultural equipments. He has been associated with many reputed brands in the industry like CG, Texmo, Honda, Anest Iwata, Greaves, Fenner, Godrej and many more. In 2007, he diversified in stone business by commencing Mineral Grinding Unit in Rajsamand, and by 2010 he added one more. He has received many awards and accolades for outstanding work in field of distribution of electrical motors, including the prestigious "North No. 2 Award" in 2011 and "Rajasthan No. 1 Dealer" from last 10 consecutive years since 2005, by Crompton Greaves Ltd., Mumbai.

Mr. Piyush Taparia

(Director - Finance)

He has become the Managing Director of the Company in 2014. He is having the prestigious financial and management degrees as CA, CFA and MBA (Finance). He has been recognized at many national platforms during his academic and post academic career. He joined management team in 2006 of the group and was in charge of business development and diversification. He has an extensive background and experience in the field of Finance, Strategic Planning, Export Marketing, and International Business Relations.

Mr. Hitesh Mantri

(Director - International Business)

With deep-rooted expertise in global trade, his export marketing approach is built on a strong understanding of international markets, client expectations, and the evolving dynamics of the natural stone industry. He brings years of hands-on experience in delivering premium-quality stone to clients across continents – from high-end architectural projects to large-scale commercial developments.

FACILITIES

Hosur, Tamil Nadu :

Located in the bustling industrial hub of Hosur, our facility here is equipped with cutting-edge technology and infrastructure to ensure the highest standards of quality and efficiency. Situated strategically, this plant serves as a cornerstone in our commitment to delivering excellence in manufacturing.

Kishangarh, Rajasthan :

Nestled in the scenic landscapes of Rajasthan, our Kishangarh plant combines modern manufacturing practices with a touch of tradition. This facility is designed to meet the growing demands of our customers while upholding our dedication to sustainability and innovation.

QUALITY

Block Selection :

We have an stringent block selection team, to inspect blocks thoroughly at quarry, before it comes to processing unit for further processing. At factory blocks are thoroughly inspected by expert team again, by using block impulsion technique for best finish, strength and natural gesture. Block Inspection

Block Inspection :

At factory blocks are thoroughly inspected by expert team again, by using block impulsion technique for best finish, strength and natural gesture.

Block Cutting :

We have the world best block dressing and cutting machines, to process all block with utmost care for identical thickness and best finish. We have the world best block dressing and cutting machines, to process all block with utmost care for identical thickness and best finish.

Slab Polishing :

We use the industry best line polishing unit for ultimate finish and best gloss for unparallel finish on natural stones. We use the industry best line polishing unit for ultimate finish and best gloss for unparallel finish on natural stones.

Final Inspection :

Before dispatch we do final inspection for each and every slab thoroughly to identify any defects in it, and check its polishing too with glosometer for final go for dispatch tag

Packaging :

Once slab cross all stringent quality check and come for dispatch, it is packed in wooden crates with care, so that it can further ship to our prestigious customers, to delight them with the best gift by mother nature. This way we also accomplish our company motto "Stones Redefined".

GRANITE

Granite is a hard, crystalline igneous rock formed from liquid magma under extreme heat within the earth's crust. Composed primarily of quartz and feldspar along with other minerals, granite is renowned for its strength, durability, and natural beauty. Its high load-bearing capacity, flexibility in cutting, and ability to produce thin and large slabs make it ideal for a wide range of architectural and construction applications.

Granite accepts a high-gloss polish, enhancing its rich patterns and natural colours, and is popularly used for interior and exterior walls, flooring, countertops, and monumental structures. Its durability ensures long-lasting performance in high-traffic areas while adding timeless elegance to any space.

SPECIFICATIONS:

Gangsaw Slabs:

270 x 160 cm+ (Thickness: 20 / 30 / 40 mm)

Vertical Slabs:

180 x 60 cm+ (Thickness: 18 / 20 / 30 mm)

Tiles:

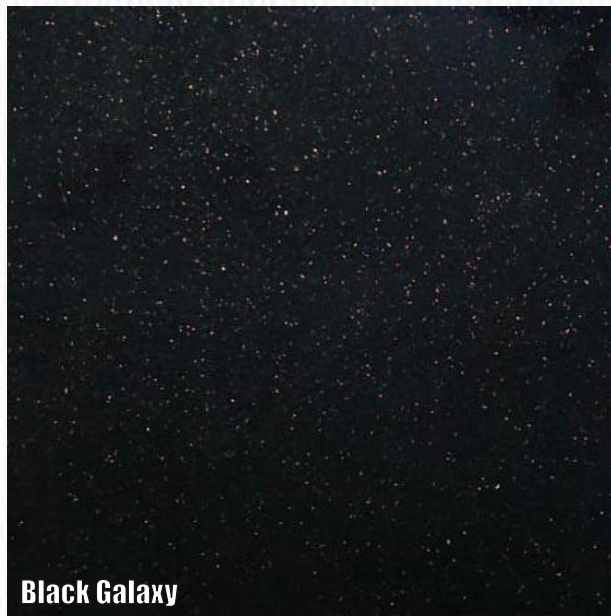

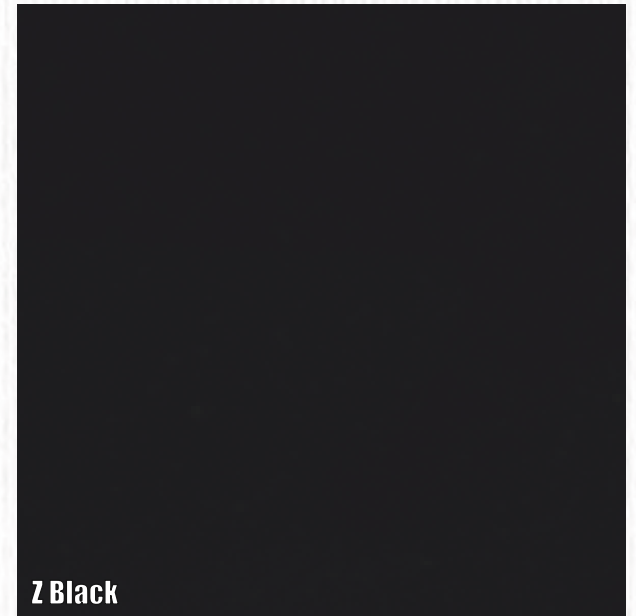

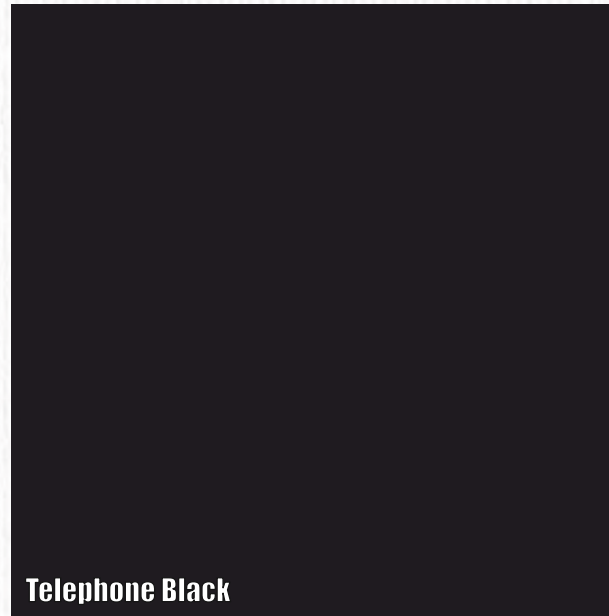

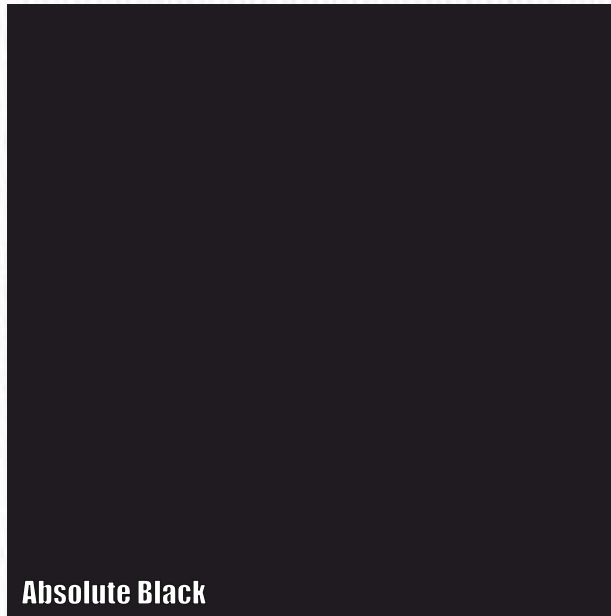

30x30, 40x40, 50x50, 30x60, 40x60, 60x60, 60x90, 90x90 cm & custom cut-to-size (Thickness: 18 / 20 / 30 mm)

Available Finishes:

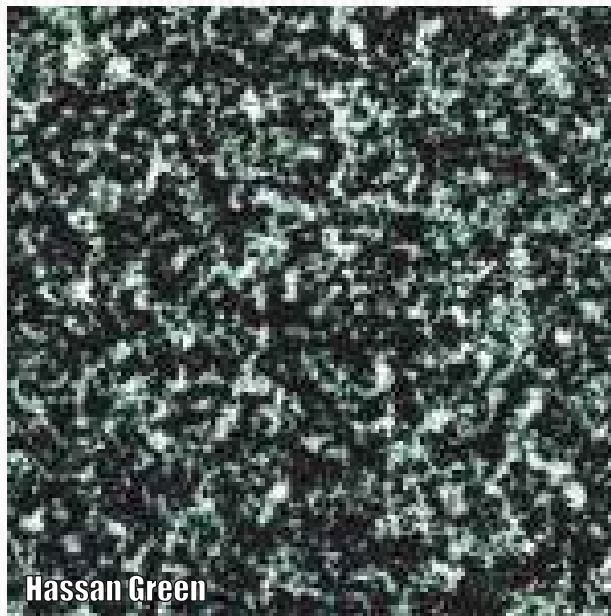

Polished, Honed, Leather, Flamed, Antique

With its timeless aesthetics and exceptional properties, granite remains a preferred choice for both residential and commercial projects, delivering unmatched strength and natural elegance wherever it is used.

Marble

Marble is a metamorphic rock formed by the recrystallization of limestone under heat and pressure, resulting in a durable and elegant material. Its primary constituents are calcium and dolomite, with a hardness ranging from 2.5 to 5 on the Mohs scale. Marble is characterized by its distinctive veining and grain patterns, offering a luxurious aesthetic for architectural and design applications.

This stone features smooth textures, making it easy to carve and ideal for sculptures and intricate detailing. Marble takes an excellent polish, enhancing its natural beauty and making it suitable for various applications, including wall cladding, flooring, skirting, table tops, treads and risers, sculptures, and decorative artifacts.

Specifications:

Rough Blocks: 210 x 140 x 100 cm and above

Slabs: 210 × 140 cm and above (Available in 18mm, 20mm, and 30mm thickness)

Tiles:

Sizes: 30x30, 40x40, 50x50, 30x60, 40x60, 60x60, 60x90, 90x90 cm Custom cut-to-size options available

Thickness:

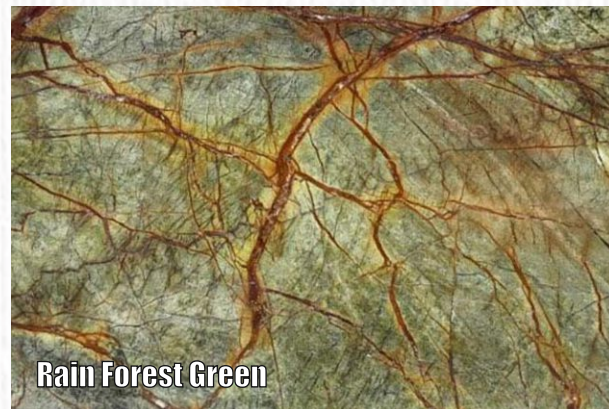

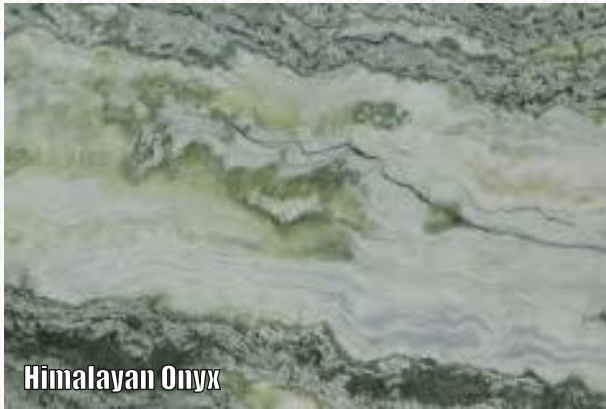

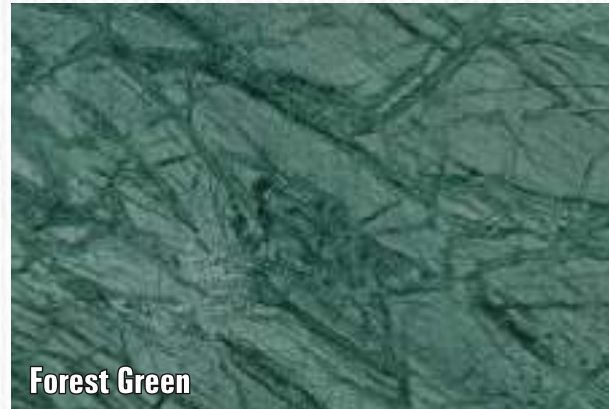

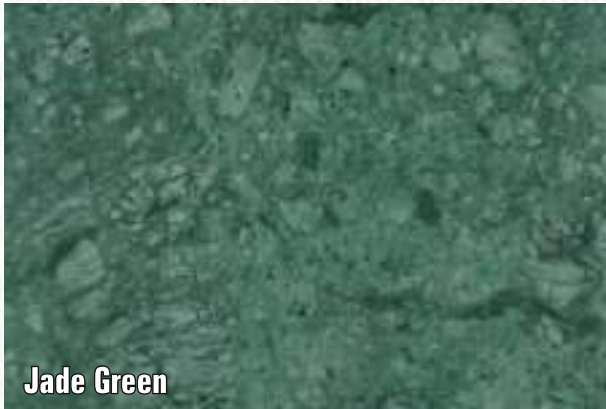

10mm, 18mm, 20mm, 30mm

Available Finishes:

Polished, Honed, Shot Basted, and Antique

Marble combines beauty with strength, making it a timeless choice for both classic and contemporary spaces.

MARBLE COLLECTION

Sand Stone

Sandstone is a sedimentary stone that is typically the result of quartzite stone being eroded and redeposit by either wind or water. Sandstone mostly consists of quartz, silica, iron oxide and calcium carbonate and is durable, weather, acid and thermal resistant and has crushing strength.

They can at most take a honed polish, and are used as garden and commercial landscapes, exterior wall cladding, etc. They come in an array of colors & shades and can be chiseled and dressed to a smooth surface in various attractive shapes.

SPECIFICATIONS

Slabs:

200 x 60 CM+ (18 / 20 / 30 MM Thick)

Tiles: 30x30, 40x40, 50x50, 30x60, 40x60, 60x60 60x90, 90x90 CM & Cut To Size.
(18 / 20 / 30 MM Thick)

Finishes:

Polished, Honed, Leather, Flamed, Antique, Shot Basted, Sand Blasted, Bush Hammered

Slate & Quartzite

Natural Elegance for Timeless Spaces Slate offers a unique, graceful look with its fine to medium-grained texture, delivering a naturally elegant finish to any home or building. Its low porosity makes it highly stain-resistant and easy to maintain, making it a practical yet sophisticated choice for interiors and exteriors.

Quartzite, while sharing the clefted look of slate, also comes in smooth finishes similar to marble and granite, providing versatile design options. A significant advantage of quartzite is its excellent resistance to freeze-thaw cycles, ensuring long-lasting beauty even in harsh climates.

Specifications:

Tiles:

*10x20,10x30,10x40,10x60 cm

*20x20,20x40,20x60 cm
